Register No. 9693
Date of Receipt 7.11.27

To

The Secretary
to the Resident in Mysore,
Bangalore.

Sir,

With reference to your letter No.9155/143-1926 dated the 9th.September 1927, I have the honour to forwa herewith an estimate amounting to Rs.17,494/- with plans for constructing quarters and kitchen for Assistant Surgeon,Lady Curzon Hospital,Bangalore, for favour of sanction of the Hon'ble the Resident in Mysore.

From the letter No.194,dated 18th.October 1927 received from the Executive Engineer it will be seen tha Mr. Murphy informs that 10,000/- can be spent this year and Rs.7,000/- can be appropriated from the grant for minor works under 32-Medical- for the current year 1927-and a sum of Rs.3,000/- will have to be reappropriated from elsewhere.

Copies of letter No.194 dated 18th.October 1927 and report on the construction of the Assistant Surgeon's quarters are herewith attached for reference.

I have the honour to be
Sir,
Your most obedient servant,

J. McPherson.
Lt-Col.,I.M.S.,
Residency Surgeon, Bangalore.

From

The Executive Engineer,
Station Municipality,
C & M.S. Bangalore.

To

The Residency Surgeon,
Bangalore

Sir,

In continuation of this office letter No.C.W.112 dated 26th.Aug. 1927 and with reference to your letter No.1218/29 dated 20th.September 1927, I have the honour to forward herewith an estimate amounting to Rs.17,494/- with plans,report and specification for "Constructing Quarters and Kitchen for Assistant Surgeon in Lady Curzon Hospital" for favour of your countersignature and transmission direct to the Secretary to the Resident for obtaining the necessary sanction and return.

The estimates for items No.1 and 3 in your letter under reference, will be sent to you in due course. A general abstract showing the sub-works involved is also herewith enclosed. Amounts against items 4 to 7 in the general abstract represent lump sum provisions for which no details can be furnished now.

If the work is to be commenced this year,vide my No. C.W.112 dated 26th.August 1927,immediate orders may be obtained to put it in hand and the same communicated to me so that I may be able to call for necessary tenders. A sum of Rs.10,000/- only can be spent this year,and a sum of Rs.7,000/- can be appropriated from the grant for minor works under 32 Medical for the current year. A sum of Rs.3,000/- will have to be reappropriated from elsewhere.

I have etc.

Sd. W.H. Murphy,
EXECUTIVE ENGINEER.

SIR,

PUBLIC HEALTH WORKS.

2824
142-26

With reference to para 2 of your letter No.10616/143-1926 dated the 19th October 1927 on the above subject I have the honor to submit the following estimates and plans in respect of the schemes referred to:-

1) A complete underground sewerage scheme for a portion of Blackpally amounting to Rs.61,975/-.

2) Laying 12" in diameter glazed stoneware pipe line from the well in Dodigunta Grass Farm to General Bazaar and Ulsoor Main Sewer amounting to Rs.38,025/-.

2. Administrative approval to an estimate for Rs.79,973/- was received for the scheme mentioned in No.1 above from the Assistant Secretary to the Government of India in the Foreign and Political Department in his Memo No.295-A dated the 30th October 1923 to the Hon'ble the Resident in Mysore and forwarded to me with your letter No.9185/82-1897 dated the 12th November 1923. This estimate was also accepted by the Municipal Commission but owing to an acute shortage of water this was not taken in hand. In this scheme it was proposed to use water from wells inside the Blackpally area and the Government of India in their memo quoted above suggested that the use of unfiltered water be avoided if possible. Since then conditions have considerably changed and a supply of Ulsoor Tank water which is being pumped daily through a main laid by the Railway authorities is available for flushing purposes. This water

2827
2-2-27

2 Encl
2-2-27.

although unfiltered is being supplied to the General and Ulsoor Bazaar areas for washing and domestic purposes and labelled "undrinkable" but it is a well known fact that this water has been for years and is still being drunk by persons living in the neighbourhood of Ulsoor tank without detrimental results to health. In the scheme now proposed water is to be supplied from a large reservoir on Blackpally Road fed from Ulsoor tank as shown in the detail plan and mentioned in the report accompanying the estimate, and the pipe lines from the reservoir can easily, at a negligible cost, be connected to the filtered water supply later on when a plentiful supply is available.

The difference in the amounts of the estimate as approved by the Government of India and as submitted now (No.1) is chiefly due to reduction in quantity of piping for unfiltered water and reduction in price of materials in general. In the approved scheme water was to be supplied to every house but under the proposed scheme water will be supplied at standposts fixed in convenient places as was done in Austin Town and Knoxpet where complete underground sewerage schemes have been working on exactly the same lines, as now proposed, for the last 7 years.

A comparative statement showing the scheme for Rs.79,973/- as approved by Government of India and that submitted now (No.1) is appended, from which it will be seen that there is practically no difference in the character of work to be done except that of unfiltered water pipes as mentioned before.

3. The scheme for No.2 is in accordance with Mr.Murphy's report on the Sewerage Scheme page 8 which has already been accepted by the Commission, and as mentioned in the report accompanying the estimate it is highly desirable in the interest of the health of the residents of the north end of the station that the pipe line be laid as proposed, as a great nuisance will arise from the Dodigunta Grass Farm when Slaughter House washings are drained into Dodigunta Farm which will have to be

done when Baderhally Farm is closed down.

The formal approval of the Commission to both the schemes now submitted will be obtained at their next meeting on 27th January 1928.

I have the honor to be,

Sir,

Your most obedient servant,

for President, M.C.

143-1926

From

The Hon'ble Mr. S. E. Pears, C.S.I., C.I.E.,

Resident in Mysore.

To

The Political Secretary to the Government of India,

Foreign and Political Department.

Dated Bangalore 16th January 1928.

INTRODUCTION OF UNDERGROUND SEWERAGE IN THE CIVIL AND MILITARY STATION OF BANGALORE.

Sir,

In reply to your telegram No. 5(27)-A., dated the 22nd December 1927, I have the honour to submit for the approval of the Government of India the following plans and estimates:-

	Estimated cost. Rs.
I. A complete underground sewerage scheme for a portion of Blackpally.	61,975/-
II. Laying 12" in diameter glazed stoneware pipe line from the well in Dodigunta Grass Farm to General Bazaar and Ulsoor Main Sewer.	38,025/-
Total.	1,00,000/-

2. In the Foreign and Political Department's Memorandum No.295-A., dated the 30th October 1923, the Government of India accorded their administrative approval to the plans and estimates for the scheme No.I at a cost of Rs.79,973/- but observed that the delivery of an unfiltered supply of water to houses for hand flushing of water-closets would not be a satisfactory arrangement. They therefore suggested that the Bangalore Municipality be asked to reconsider the arrangements with a view to its avoidance if possible. Owing to an acute shortage of water the scheme was not taken in hand. In this scheme it was proposed to use water from wells inside the Blackpally area. Since then conditions have considerably changed and a supply of Ulsoor Tank water which is being pumped daily through a main, laid by the Railway authorities is now available for flushing purposes. This water although

unfiltered

unfiltered is being supplied to the general and Ulsoor Bazaar areas for washing and domestic purposes and labelled "undrinkable" but it is a well known fact that this water has been for years and is still being drunk by persons living in the neighbourhood of Ulsoor Tank without detrimental results to health. In the scheme now proposed, water will be supplied from a large reservoir on Blackpally Road fed from Ulsoor Tank as shown in the detail plan and in the report accompanying the estimate, and the pipe lines from the reservoir can easily, at a negligible cost, be connected to the filtered water supply later on when a plentiful supply is available.

The difference between the original and the present estimates is due to reduction in the quantity of piping for unfiltered water and reduction in prics of materials in general. In the scheme originally approved by the Government of India it was proposed to supply water to every house but under the revised scheme water will be supplied at standposts fixed in convenient places in Bangalore Blackpally ? as was done in Austin Town and Knoxpet where complete underground sewerage schemes have been working on exactly the same lines, as now proposed, for the last 7 years. A comparative statement is enclosed from which it will be seen that there is practically no difference in the character of work between the original and the present scheme.

3. The scheme No. II is in accordance with Mr. Murphy's report (page 8) on the sewerage scheme a copy of which is enclosed and as mentioned in the report accompanying the estimate it is highly desirable in the interest of the health of the residents of the north end of the Station that the pipe line be laid as proposed, as a great nuisance will arise from the Lodigunta Grass Farm when Slaughter House washings are drained into Lodigunta Farm which will have to be done when Baderhally Farm is closed.

4. A sum of Rs. one lakh has been provided under Part II - B - Fresh charges of the Bangalore budget estimates for 1928-29 for the purpose. I request that the Government of India may be

pleased

pleased to include the amount in the said estimates.

5. The sanction of the Government of India may also be accorded to pay this amount to the Municipal Commission, Civil and Military Station, Bangalore, as a grant-in-aid during 1928-29 from the Assigned Tract share of surplus revenues.

6. Proposals as regards the other items referred to in your telegram will be submitted separately.

I have the honour to be,

Sir,

Your most obedient servant,

S J K Evans Gordon

for RESIDENT.

Statement of tenders received for "Constructing House Surgeons quarters in Lady Curzon Hospital" is put up with the original tenders.

Item 1, the lowest tenderer, Mr. Kariappa is an annual repairs contractor both for Municipal Works and Civil Works who has been executing repairs and petty works not exceeding a cost of Rs.2500/-. He has not executed any major construction work so far. The other contractor K. Muninanjappa by name is a reliable man who has carried out extensive works in the station and I do not think it is worth while trying a new man when the difference in the amount of their tenders is only Rs.75/-. I therefore recommend K. Muninanjappa's tender for acceptance.

Registrar.

Sewage Scheme Plans and estimates.

These have been prepared in detail but require formal sanction of Commission which will be obtained on 27th.

If there is any special reason I can send them on in anticipation of Commission's approval but this will be inconvenient. I note you ask for plans and approximate estimates. I can let you have a brief summary of the estimates now if necessary which will give a general idea of what is being proposed and the exact cost.

Office of the Resident in Mysore,
Bangalore 11th January 1928.

A sum of Rs.one lakh has been provided under

Part II B - Fresh Charges in the Bangalore budget estimates for 1928-29 for the provision of modern drainage and reconstruction of public latrine. The Government of India have asked (by telegram on 22nd December 1927) for detailed proposals so as to enable them to include the above amount in the Bangalore budget estimates for 1928-29. It appears that we cannot delay the submission of detailed proposals up to 27th January 1928. If delayed the Government of India may exclude the amount from the next year's budget estimates. If a brief summary of the estimates and plans be sent to this office immediately they will be submitted to the Government of India with the intimation that detailed plans and estimates will be submitted after obtaining the formal sanction of the Municipal Commission on the 27th instant. The necessity for the expenditure may kindly be explained in detail in your letter.
